After this period the auctioneers will not accept any responsibility for resolving any dispute. Within the time period, the purchaser can, at the vendor's expense return to the vendor any beast or alternatively claim from the vendor any premium lost as a result of the vendors inaccurate description of the animals documentation.

DANGEROUS ANIMALS

Please do not bring any cattle into the market which you know are dangerous or uncontrollable. We cannot accept liability for any such animals, if they break out of the market whilst they are being unloaded or transferred to their pens. Because the market is located in a town the potential damage that can be caused by an 'escaped beast' is enormous, and we would ask owners of these animals to consider carefully if they are safe to bring to a public place.

GUIDANCE ON BIO-SECURITY AT MARKET

1. All loaded vehicles must have a fully completed owners declaration relating to livestock which must be shown at the market entrance.

2. Clean rubber boots and waterproofs must be worn and disinfected prior to entry to animal penning area.
3. Access to animals will be provided to registered persons only at a single point adjacent to market office.
4. Footwear must be cleansed and disinfected at all identified control points.
5. All visitors are requested to abide by the Bio-Security instructions posted at various locations throughout the market.
6. Vehicles unloading stock must disinfect trailer/lorry wheels prior to exiting market. Trailers will be allowed out of market without complete cleansing and disinfection as long as they cleanse and disinfect within 24 hours at home. However, any trailers returning to pick up unsold stock will first need to cleanse and disinfect on the lorry wash.
7. All livestock must be removed from the premises on the day to allow cleansing and disinfection of site by market staff.
8. Please note that movement of animals back on to the farm will trigger the 6 day standstill on storestock and fatstock off movements.

ALL STORE CATTLE OVER 42 DAYS OF AGE MOVING OUT OF A 1-2 YEARLY TESTED HERD MUST HAVE BEEN TESTED NEGATIVE TO TB WITHIN 60 DAYS PRIOR TO MOVEMENT.

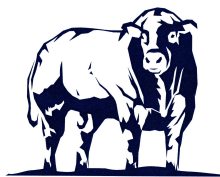

YOU MUST NOT UNLOAD CATTLE UNLESS YOU CONFORM TO THESE REGULATION
