FARMER OWNED. FARMER FOCUSED. WE ARE HERE FOR YOU.

HHP\$ FORMULATED TO SUPPORT YOUR SUSTAINABILITY GOALS

Genetic progress equates to greater environmental sustainability.

Select Sires' **Herd Health Profit Dollars™ (HHP\$™)** is the premier index to enhance your dairy's sustainability. It is designed to create healthier, longer-living cows that reduce your herd turnover while lowering your carbon footprint.

BOOST COMPONENTS

More pounds of CFP from fewer cows is key to improving sustainability and also equates to more lifetime profit per cow.

RESIST MASTITIS AND IMPROVE MILK QUALITY

Cows with clinical mastitis have 6% higher carbon footprint per unit of milk.

LIVE LONGER, LESS HEALTH EVENTS, EASY CALVINGS

Reduce culling, raise fewer replacements and spend less time and money treating sick cows.

BREED BACK QUICKLY

Improving pregnancy rate from 19% to 25% reduces total herd methane by 10% and increases profit \$49 per cow per year.

CONFORMATION

Leverage conformation traits to create balanced and robust cows that are easy to milk, easy to manage and built to last.

FEED EFFICIENT

Moderate body size and improved feed efficiency means less feed and less water per pound of milk.
