Facebook: Halls Livestock & Machinery Sales

General Information & Sale Notes

METHOD OF SALE

All Cattle will be sold in gns per head. The sale will be conducted under the Livestock Auctioneers association on Conditions of Sale 2022 as amended. A copy will be available at the Auctioneer's office.

COMMISSIONS & PHONE BIDS

The Auctioneers will dutifully execute commission to Purchase for buyers unable to attend the sale, provided written instructions are received no later than 24 hours before the sale.

Telephone bids can be arranged by contacting the Auctioneers office again 24 hours before the sale

SETTLEMENT & CLEARANCE OF STOCK

Settlement Is due in full immediately at the close of the sale. No animal may leave without a "Pass Out" from the Auctioneers Office. All stock left at the sale on this basis are at the purchasers' risk and purchasers MUST notify the auctioneers of their intended collection time.

MARTEYE AND ONLINE BIDDING

Live Bidding via Marteye will be available throughout the sale, please note new purchasers MUST register no later than 3pm on the day prior to the sale.

WARRANTY – TIME IS OF THE ESSENCE

PLEASE NOTE UDDER WARRANTY GUIDELINES:

- Unless otherwise announced or declared, any heifer or cow in milk or cow in calf at the time of sale shall carry a guarantee that she is sound in udder and teats at the time of sale, all claims.
- Any claims against the guarantee must be made to the Auctioneers by 12.00 noon on the day following the sale for a cow in milk or within two hours following the close of the sale for a dry cow.
- No Guarantees for any animal sold under £1000.
- If the Auctioneers are in agreement that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.
- The vendor warrants that any cow or heifer sold as being in calf is in calf at the time of sale, this is a 38 + 5 day warranty.

All cows served 10 weeks or more are Guaranteed in calf on the day of sale, this is a 38 + 5 day warranty, no claims after this time will be accepted.

NEW PURCHASERS & CONDITIONS OF PAYMENT:

All accounts must be settled on the day of sale, no credit will be available. Any prospective purchaser's unknown to the auctioneers wishing to pay by cheque must make the following arrangements at least 7 days prior to the sale.

1. Inform your Bank Manager that you wish to pay by cheque. Tell them the likely amount that you intend to spend and instruct your Bank Manager to inform us by e-mail market@halls.gb.com that it is in order to accept your cheque.
2. Arrange with your Bank Manager for a guaranteed cheque to be issued.
3. Debit cards accepted,

VENDORS FOREWORD

The Lilleshall pedigree herd was established 25 years ago, when we moved to Abbey Farm. Over the years we have invested in some great cows' families. Philip bred the cows based on PLI but also to maintain a strong balanced cow that was high yielding, long lasting and unproblematic. He particularly liked the red cows with the **HELENE** and **RAE** families being some of the best.

The milkers are housed all year round on a robotic milking system averaging 38kg. The heifers are well grown calving at 2 years old with many giving over 40kg. Feed supplied by Carrs Billington with rations devised by Alan Hornby and Dan Leedell. Foot trimmer, Craig Lawrence, comes every month.

We are confident that every animal will go on to flourish in their new home carrying the potential to enhance any breeding program.

We are sure you can understand it has been a very sad time for us. After losing Philip we have decided we do not want to carry on with the cattle. We will focus on our diversification business Best Concrete.

We would like to thank everyone who has supported us over the years- family, friends, staff and industry professionals. We couldn't have done it without you.

Thank you

Syliva and Clare

AUCTIONEER'S FOREWORD

Halls are honoured to received instructions from SM Gilman and Partners to dispersal their top quality "Lilleshall" Herd of Pedigree Holstein Dairy Cattle on Friday 30th May 2025 at Shrewsbury Auction Centre.

The herd has been established with passion over 25 years with, Philip and Clares the objective to breed high yielding problem free cows which are pleasing to the eye, Philip had a particular love of red cows with Roxys, Raes, Helenes and Mollis among others featuring throughout the catalogue.

The herd is Cubicle House and Robotically milked fed a TMR diet currently producing an impressive 38kg of milk per day on a very young herd profile with 111 in their first lactation, 93 in their 2nd, 34 in their 3rd and 39 milking in their 4th Lactation or Higher. The fertility of the herd is very impressive with the help of former herd lady Chloe Sharratt and Alta the current calving interval for the herd is 381!! CIS Milk records show the 305 day averages as follows

10736kg 4.20%bf 3.41%ptn 140cc

The Sale includes 9 EX, 53 VG and 163 GP cows with the following cow families on offer **ALICIA, ASHLYN, AVIS, BLACKROSE, BRENDA, DELLIA, ELEGANCE, HELENE, KIMO, MARQI, MOLLI, RACHEL, RHAPSODY, ROXY** and **ZANDRA** the opportunities to tap into these families in dispersals do not come along very often, do not miss this opportunity.

The youngstock are in superb condition some of the best I have ever had the pleasure to walk though couple this with the exceptional breeding lines and will certainly be the best I have ever had the privilege to sell. All Heifer calves born in the last 6 months will be sold as A lots after their dams.

Milk has been produced for Muller Tesco meeting all the standards required such as BVD, Lepto, IBR Vaccinated and Johnes Monitore with no RED cows in the herd, the Herd has been TB free for 10 mths and the previous 3 herd tests. The last TB test date 29th April 2025.

Jonny Dymond

Veterinary note

LLM Farm vets have had the pleasure of providing veterinary services for the Gilman family since 2018. The dairy herd is closed with regular infectious disease monitoring through quarterly bulk milk antibody testing (IBR, BVD, Leptospirosis, Salmonella and fluke) and individual cow Johnes screening. They implement a robust herd vaccination programme including vaccination against BVD (booster due in July), Leptospirosis (booster due in July) and IBR (with live vaccine given as a precautionary measure in both Spring and Autumn). Fertility management has been proactive, with a calving interval of less than 390 days.

We would recommend these cows to any prospective buyers and wish the Gilman family every success.

For any additional queries around health performance further information can be provided upon request.

WHY PARTNER WITH ALTA?

C&H Ford Farm Ltd was established in 2015 by Chris & Helen Ford when they gained the tenancy of Peaddon Farm, Fiddington Somerset part of the Fairfield Estate and started the Quantock prefix.

Chris & Helen started with 400 cows and 0 youngstock and have grown the business over the last 10 years to now milk 900 cows 3x a day with a herd average of 12500L per cow. All youngstock replacements are reared on farm with around 920 head of stock currently on farm.

All of the Quantock herd are pedigree Holsteins with all maiden heifers being served to sexed semen and the milking herd inseminated on a sexed, conventional and beef strategy. We aim to create a surplus of 200 animals per year for sale or further expansion.

Our son Robert returned to the farm after completing college in 2020 and is now herd manager, striving to improve the herd genetics further utilising genomics.

We have always had a passion and interest in breeding good cows that are naturally milky, strong, powerful with great legs, feet and udders.

"9 years ago, we partnered with Alta to help drive the breeding of our herd forward. This has proven to be a great success to our business and allowed us to achieve our breeding aims with a variety of great bulls with 100% of our herd being Alta bred for up to the last 6 generations."

While genetics has always been important, fertility also remains a key KPI within our business. Under the guidance of Alta's breeding advisors Alta CONCEPT PLUS sires have formed part of our breeding strategy over a number of years to maximise the pregnancies created within the herd. As a result we have achieved a 12 month pregnancy rate of 32% with conception in our milking herd running at 44%.

The success of the herd was highlighted in 2022 when they were finalists in the Gold Cup and they hope with the help of Alta breeding great cows they can improve and inspire even further in the future.

Chris, Helen & Robert Ford

Ask your trusted Alta advisor about creating a custom genetic plan and start driving your genetics forward today! uk.altagenetics.com

LOT 71 - LILLESALL SHIELD SUZY 15 VG87

A photograph of five black and white dairy cows standing in a row in a barn. The cows are facing away from the camera, showing their hindquarters and udders. They are standing on a wet, reflective floor. The barn has a high ceiling with a complex system of wooden beams and corrugated metal siding. A large white fan is visible on the right side of the image.
