VENDORS FOREWORD

Allen's grandfather came to the Groton with his herd from we think was park farm Oswestry in 1921 and farmed a mixed farm till 1966 when Sue and John, Allen's parents took over increasing the numbers to 100 using higher yielding genetic s provided by Brian challinor.

When Brian retired, they moved to genus Sue and John semi-retired in 2000. This was when Allen took over Breeding Policy with Genus.

The Groton herd has been on RMS with Genus ABS for the last 15 years, fertility on farm being a consistent 25+ pregnancy rate over this time.

Cows have been bred for very good legs/feet and Udders with plenty of strength, not extreme stature, plenty of milk with kgs of fat and protein.

The herd have used top proven and Genomic sires from Genus following the GMS mating program using a sexed and beef strategy.

Bulls used

2019 – Abs Barrett, Denovo Atrium, Flowrider, Radical, Bestman, Spock

2020 – Sedona, Bomaz Fynn, D Afton, D Prince

2021 – Generate, Stark, Lightyear

2022 – Envoy, Villanova, Cabo, Generate, Stark, Oracle

2023/24 – Provo, Highlight, Darius, Monk

To whom it may concern:

VETERINARY REPORT

Trefaldwyn Vets have been the Wainwright family farm vets for many years.

I, the undersigned, have been the principle vet attending the cows over the last number of years with bimonthly fertility visits.

We as a practice have provided animal care and veterinary services to the herd with respect to preventative evidence led measures to which the herd is now fully vaccinated for BVD , Leptospira (spring) and IBR (Autumn).

Additionally, the cows are vaccinated with rotavec corona at drying off to assist with neonatal scours. Clostridial vaccines are administered to the youngstock.

The herd screens for Johnes disease through individual milk testing. Mastitis levels are low. Lameness levels are low with regular (bimonthly) foot trimming being conducted.

Currently the fertility levels of the cows are very high. The cows have gone to grass since early spring and this has not had any detrimental effect to the cow's production or fertility levels. The herd is currently TB free with the most recent whole herd test being conducted in March/April this year. The herd has been TB tested twice yearly in line with regulations in Shropshire.

Yours faithfully
Daragh Brady

AUCTIONEERS FOREWORD

Halls are delighted to have received instructions from TA Wainwright and Son to disperse their commercial dairy herd at Shrewsbury Auction Centre on Tuesday 20th May 2025.

The Wainwright commenced milk production at the Groton in 1921 and now the time has come to remove the daily workload that comes with dairy farming and look for a easy life in the arable sector. The breeding is overseen using the RMS system with genus Genus bred keeping the Holsteins Pure bred, a couple of years ago numbers were topped up out with cattle from Shrewsbury Market, these including some Brown Swiss which have also been kept pure bred.

The herd is fed a TMR diet with cake in the parlour, cubicle housed and grazed in the summer months. The herd is currently producing an average of 30kg per day on an AYR calving pattern when the calving interval is 372 days! The 305 day averages via CIS as follows:-

8414kg 4.42%bf 3.32%ptn 120cc

This is a modern Herd of cattle displaying supreme legs and feet and udder attachment the herd is healthy and vibrant! 69 have calved since the 1st of February, with 33 due July to September and 46 due in the winter months. The Wainwrights have always been great supporters of Shrewsbury Auction with their calves which are firm favourites among the buyers, with this in mind the fact that all pregnancies are to British Blue of Angus is sure to appeal!

The herd are vaccinated for BVD, IBR, LEPTO and Black leg. TB 31st March 2025 and TB free for 4 plus years.

The photos of this lovely herd speak for themselves, I recommend them most highly for both traditional systems and indoor units where there potential is limitless!! We look forward to seeing you at the sale in Shrewsbury which will follow our monthly show and sale.

Jonny Dymond
