VENDORS FOREWORD

The Walker family established the Humblebee Grange Herd in 2011 on their farm in Derbyshire. Breeding originated from cattle purchased from the Laxfield, Broadstoke, Wartonspool and Hollowseal herds. With sires acquired from the Alderville and Fabb herds. AI has been used most recently with Netherhall 1 Matty.

Following the reduction sale at Shrewsbury in 2023 the family have now reluctantly decided to have a change in their farming policy. This brings about the total dispersal sale of the most genuine stock, mostly first and second time calvers with calves at foot, heifers and a homebred young bull, Humblebee Grange 1 Buddy.

The herd has been bred top produce cattle in the top 10% to 5% EBVS.

TB Tested 01.07.2025.

HERD HEALTH STATUS

- Hi Health Status
- BVD accredited Free, Vaccinated 05.08.2025 with Bovela. All calves tag and tested negative.
- IBR Accredited, Marker Vaccinated 05.08.2025
- Lepto Accredited
- Johnes Tested Negative
