GUIDANCE ON BIO-SECURITY AT MARKET

1. All loaded vehicles must have a fully completed owner's declaration relating to livestock, which must be shown at the market entrance.
2. Clean rubber boots and waterproofs must be worn and disinfected prior to entry to the animal penning area.
3. Access to animals will be provided to registered persons only at a single point adjacent to the market office.
4. Footwear must be cleansed and disinfected at all identified control points.
5. All visitors are requested to abide by the Bio-Security instructions posted at various locations throughout the market.
6. Vehicles unloading stock must disinfect trailer/lorry wheels prior to exiting the market. Trailers will be allowed to leave the market without complete cleansing and disinfection, as long as they are cleansed and disinfected within 24 hours at home. However, any trailers returning to pick up unsold stock will first need to be cleaned and disinfected at the lorry wash.
7. All livestock must be removed from the premises on the day to allow cleansing and disinfection of the site by market staff.
8. Please note that movement of animals back onto the farm will trigger the 6-day standstill on store stock and fat stock off movements.
