VENDORS FOREWORD

MR & Mrs Manford started farming at Nescliffe when they married in 1946.

In the mid-fifties, mum wanted a Jersey House Cow, so she could have some decent milk not coloured water!! The cow "Cornflower" produced heifer calves as they do!! So did her offspring in 1961-62.

Dairies were quite a premium of an extra shilling (5 pence) a gallon which was a lot of money then. Mum and dad decided to sell the Friesians and go in for Channel Islands, dad liked Guernseys!

The Eldest Daughter wanted to stay at home, so they decided they needed a bigger farm, they bought the Twyfords in 1963, and the purchased Pedigree Cattle from Crewe Market. The daughters and mum and dad carried on farming as the years rolled on, sadly age years have taken their toll and the family have decided that now is the time to let the Dairy herd go. These are young cows and should go on to do well in their new homes.

We would like to thank the Auctioneer for being so helpful, Andrew Beckett for keeping the cows on the straight and narrow, nephew Frank for keeping the place clean and tidy.

PS, the Manford Family enjoyed many years showing their cattle at local shows with great success at the West Mid 1970, winning Champion Guernsey and meeting the queen herself.

AUCTIONEERS FOREWORD

Halls are pleased to be favoured with the Dispersal Sale of the commercial Guernsey x and Jersey x Dairy Herd on Behalf of MK Manford and Partners.

The Sisters, Shelia, Jean and the Late Ruth, are remarkable ladies truly hard working for years more than most, but time waits for no one and with recent Health Complications the extremely tough decision has been made to disperse the herd.

This herd is truly a rare find in 2025, The family came to the farm in the 1960's and had numerous show successes with their Guernsey cows, then in the 70's Jersey milk was worth 5 shillings more and hence they were introduced to complement the herd, until it was completely closed with the exception of stock bulls in around 1975!

The cows are just lovely, you cannot help but be taken by them, they're in good heart and health, well balanced on great legs and feet with the heifers in particular showing beautiful udder quality. The milk quality will make an impact on your tank and with quantities high around. The November 2025 NML report states the following quality

5.41%bf 3.98%ptn 179cc

Sure to be of interest are the 11 Fresh Heifers and for the spring block there are 31 cows in the block. The 6 in calf heifers are showing great promise and the 11 spring born heifer calves are a well grown level bunch! The herd is run very commercially, grazing throughout the summer months and housed for as short a period as possible in winter. In calf to either the Pedigree Angus Stock bull or AI's to Rager Red.

If you want a splash of colour and milk quality this blended herd is perfect for you, in large or small units they tick the box's the cows in markets every week might miss!

We look forward to seeing you on Tuesday 18th November 2025.

Jonny Dymond
