VENDORS FOREWORD

It's not been an easy decision as to when to stop milking, but the main contributing factors are that we are all now pensionable age, and significant investment needs to be made in the infrastructure to carry on.

David Bayliss, our herdsman is planning to retire shortly, after working alongside us for 50 years. We would like to thank David for his commitment to looking after the herd so well, and help in breeding the lovely cows we have today.

Thanks also to Rob Walker, of GLW Feeds who has advised us and supported us over a number of years, also thanks to Nick Challenor & James for the excellent foot trimming.

Thank you to all the other trusted businesses and individuals that we have also dealt with over the years.

In 1942, Dad (Les Edwards) at the age of 17, started a dairy herd at Overton Farm, Ludlow. In 1979, it was decided to move the cows to Stoke Farm, Greete, the farm he & his wife (Pam) purchased in 1967, after investing in a new parlour and cubicle sheds. We have worked hard looking after the cows, and breeding good replacements, the herd being registered pedigree in 1983. The cows have grazed outdoors whenever possible, and have spent the winter housed with good quality feed consisting of grass silage, maize and protein blend.

We hope that prospective purchases will continue to do well in your care, as they have in ours

AUCTIONEERS FOREWORD

Halls are delighted to received instructions from WL Edwards & Co to disperse there pedigree “Stoke” herd of Holstein Cows at Shrewsbury Auction Centre on Tuesday 6th January 2026 following the weekly sale of Fresh Calved Dairy Cattle.

This is a delightful herd of cows, farmed on a traditional system, housed in a Kennel Shed and fed a simple diet through a Forage box their potential in modern sheds and with modern rations is tremendous. They have modern balanced frames, with youthfulness and smooth locomotion with mammary systems which are built to last. Sprinkled through this beautiful herd are a number of Red and White Holsteins which just add to the appeal.

The herd is NMR Milk recorded with averages as follows:-

7650kg 4.30%bf 3.31%ptn 109cc

The current 3 calving index is 389 days, with attention to detail paramount they are routinely foot trimmed by ND Challenor. The herd is AI bred using predominantly semen with Alta and Avoncroft sires with the Pedigree Angus Stock Bull used to sweep up.

The herd is fully vaccinated for LEPTO, BVD, IBR and Bluetongue and passed their TB test passed on the 18th November 2025.

I think you will love them.
