VET REPORT

Trefaldwyn Vets has been the Georges family farm (at Bryn Y Maes) vets for many years.

We as a practice have provided animal care and veterinary services (including emergency services) to the herd via preventative evidence led measures. The herd (mostly black and whites) is grazed from the spring / summer and then housed in Autumn usually when the weather breaks. The herds BVD status is negative with the most recent youngstock screen having been conducted in February 2026. The Bryn Y Maes herd has a Johnes whole herd screen average test value of 4.78 over the last 12 months with the target of below 5.5 being achieved. The herd does not vaccinate for Leptospirosis/BVD/IBR. There has not been any evidence of these conditions being an issue on farm. The herds' fertility levels are high and since going to grass this spring there haven't been any obvious concerns regarding this parameter nor with milk output either. The herd has its routine foot care done by J D Hoof Care (Jo Donell) and has mobility scoring done at the time of milk recording. The last years lameness was established to be no higher than 4% which is low.

The herd is TB clear with the most recent TB test being conducted in early May 2026.

The Herds antibiotic usage at the most recent assessment is low and was safely below the accepted target of <20mg/kg illustrating that there have been few infectious concerns on farm.

Kind regards

AUCTIONEERS FOREWORD

Halls have been favoured with instruction to sell the Severn Valley Herd of Pedigree Holsteins on behalf of Rob Jan and Barry George, on Tuesday 23rd June 2026, Who's tenancy at Bryn Y Maes farm is coming to an end.

This herd has developed over the last 28 years by Rob and the family with the foundation of great established families. Such as: Dewdrop – Salwick, Dawn – Grove, Barb – Hanoverhill, Dandy – Brookview, Lulu - Beechpike Cross Stitch- Lansen

These families have been developed skilfully by Rob using his knowledge and experience gained by being Herdsman for one of the top herds in the country at the time for 14 years with the Lansen Herd, owned by Gwynne Jones who invested into top families from the top herds.

This herd has been regularly milk recorded by CIS and classified by Holstein UK, giving particular attention to milk quality and type. The herd has been mainly fed on Round Bale Silage this last 12 months. The herd has freshly calved Cows and Heifers and also mainly due in the coming months when hopefully the milk price will be more favourable to everyone. The herd is currently averaging 27kg per day with the 305 day averages being

8620kg 4.35%bf 3.66%ptn 170cc

The herd comprises 4 Excellent cows, 17 Very Good, 11 Good Plus. With the majority individuals being in their prime with 5 Inmilk heifers 13 second lactation cows, 10 3rd lactation cows, 7 4th and further 7 Inmilk in their 5th lactation or more, including one 11th Lactation Excellent Cow. The youngstock comprise 15 Incalf Heifers and 23 Bulling Heifers, which look extremely impressive being well grown on a no frills outdoor system.

Youngstock served with Holstein: Sexed Hardy or Pazzle All those in the sale served to Aberdeen angus are either Blackhough Lucas and Quinn

For health status please view vets report, the herd was TB tested and clear on the 5th May 2026.

This is a herd you can buy from with confidence and will only go on and thrive for their new purchasers.
