THE DISPERSAL OF BRIDGE FARM COMMERCIAL HERD

COMMERCIAL IN MILK HOLSTEIN, BROWN SWISS AND JERSEY COWS AND HEIFERS

44 HEAD

On Behalf of
J J B Powell and Sons,
Bridge Farm, Prees, Whitchurch

Tuesday 28TH July 2026 – 11.15am

(following the weekly sale of dairy cattle)

Removed to

Shrewsbury Auction Centre
Battlefield, Shrewsbury Shropshire SY4 3DR

 01743 462620

 dairy@halls.gb.com

 halls.gb.com/auctions

Halls are favoured with instructions from JJB Powell and Sons to disperse their Holstein, Brown Swiss and Jersey Herd at Shrewsbury Auction on 28th July 2026, following the weekly sale of dairy cattle

A herd we will be sad to see dispersed, the Powell Family have been at Bridge Farm since 1962 and customers of Shrewsbury Auction ever since, today marks the end of the milking chapter in this family farm with the commercial pressure on Milk production and Health the key drivers behind this very hard decision.

The herd was homebred until 4 years ago at which time the outstanding Hereford Bull ELDERSFIELD 1 HELIUM W1732, was purchased and replacements have been source as either heifer calves or fresh milk. The herd is farmed on a traditional loose housed system, with the majority of milk coming from grass/forage some the overwhelming majority of the those for sale are fresh since march, a number of the cows are PD'd to the Hereford, all have been running with him. Autumn calving cows and heifer will be retained and brought to Shrewsbury in our weekly sale.

The herd is not milk recorded, but a recent bulk sample show a butterfat of 4.20% 3.30% and a cell count for the sale animals of under 200.

The herd does not vaccinate and has no history of BVD, Lepto or IBR. BVD milk monitored negative in March 2026 and Johnes Monitoring, all green cows. The herd was TB Tested on 1st June.

As always on a Tuesday we have got our weekly sale with over 50 head of fresh milkers available, if you are on the lookout for quality dairy stock, look no further than Shrewsbury Auction Centre

Veterinary Note - Bridge Farm Herd

I have had the great pleasure of working with the Powell Family and their herd at Bridge Farm for a number of years.

The cows are predominantly Holstein and Friesian with a number of Brown Swiss and Jersey mixed in for variety. They are grazed in summer and loose-housed in winter, when they are fed on round-bale silage, with the herd averaging 4.2% Butterfat and 3.3% protein. Bactoscan is currently 11 and bulk tank SCC 194. Milking takes place twice daily through a herringbone parlour, and whilst they have not been pushed for yield they would easily produce greater amounts on a more intensive system.

The majority of the herd have calved since March and are either confirmed in calf or have been running with the Hereford stock bull (polled) - who produces thriving and well-shaped calves.

As of March this year the bulk tank was negative for BVD virus and for antibodies to Leptospirosis, IBR and Salmonella.

I am happy to discuss any aspect of herd health with prospective buyers who require further information.

I would like to take this opportunity to wish all of the family the very best for the future, and to thank them for their long standing support.
